

To the committee

I am hoping that the committee will reconsider submitting these maps. Map redistricting should come from an independent committee and not the same Mike Madigan process. Our state is in shambles and our credit rating is awful. When will the state start to change the problems and procedures that are driving Illinois people out of the state. Please reconsider and veto this map redistricting process and start a new process with the independent group. It is time for corruption to stop controlling Illinois. For once, it is time to consider all Illinois citizens and not just the ones controlling these groups.

Take a look at what is wrong with our state and who was the driving force to put us in this predicament Mike Madigan and the other greedy politicians.

*Thank you,*

*Karen Fankhauser*
